Parish Clock Service Costs

I write regarding ongoing servicing of the clock at St Mary the Virgin.
The clock is on our annual service agreement, which provides for one pre-arranged service each year.

A three year offer to service the clock in October 2025, 2026 and 2027 would cost £819 net plus vat.
Payment is required prior to our first attendance.

We appreciate that you may prefer to revert to annual payment, the cost to service the clock in October 2025 will be £300 net plus vat. The invoice for annual payment is forwarded following our Clockmakers attendance. An annual increase will be applied for ongoing servicing.
